

Think First & Stay Safe!

The Job Lure

Lesson #16

St. Joseph the Worker aligns quite naturally with this lesson. He is the theme and provides a wonderful example for the children.

Jobs are essential for our physical health and well-being; we have to work if we want to eat. Many of the children will have chores for which they are responsible. They can be engaged in discussion around these; what do their chores contribute to their family? How do they feel about that?
